Upholstery Cleaning & Care Codes

CODE	CLEANING METHOD	CLEANING DETAILS	FABRIC TYPES
W	Water-based Cleaning	<p>The fabric can be spot cleaned with a water-based shampoo or foam upholstery cleaner.</p> <ul style="list-style-type: none"> You can use a brush to agitate the cleaner or even an upholstery attachment on a carpet cleaner. Be careful to avoid over-wetting the stain. NOTE: This does not mean it is machine washable. 	<ul style="list-style-type: none"> Chenille InsideOut Performance Fabric®
S	Solvent-based Professional Cleaning	<p>The fabric must be cleaned by a professional furniture cleaning service using a solvent-based cleaning agent (often also indicated as “dry clean only”).</p> <ul style="list-style-type: none"> Do not use water. Do not spot treat stains with a water-free solvent or dry-cleaning product. Use solvent cleaners in a well-ventilated room, away from open flames. 	<ul style="list-style-type: none"> Velvet Woven Patterns Textures
W/S	Water- or Solvent-Based Cleaning	<p>The fabric can be spot cleaned using either a waterbased or solvent-based cleaning agent. A professional should clean stains or perform a deeper cleaning.</p> <ul style="list-style-type: none"> Pre-testing is especially important: test the cleaning agent on a small, hidden area prior to use. These fabrics can be spot cleaned with upholstery shampoo, mild detergent foam or a mild dry-cleaning solvent. Do not saturate with liquid. Pile fabrics may require brushing to restore appearance. 	<ul style="list-style-type: none"> Velvet Sunbrella® Woven Patterns Textures InsideOut Performance Fabric®
X	Brush-only Cleaning	<p>The fabric should be cleaned only by vacuuming or light brushing with a non-metallic stiff brush.</p> <ul style="list-style-type: none"> DO NOT USE WATER OR A SOLVENT-BASED CLEANER. 	
W/S/B		<p>This performance fabric can be spot cleaned or is machine washable with a mild detergent or diluted bleach solution for easy care.</p>	
W		<p>This performance fabric is machine washable with a mild detergent in cold water for easy cleaning.</p>	

Additional Cleaning & Care Instructions

You should always consult the cleaning and care instructions that came with your product as they may have specific requirements.

We advise testing any cleaning method – especially on new products – on a small, hidden area prior to cleaning a larger area.

- Do not use a colored cloth as the color may transfer to the surface.
- Do not aggressively rub an area as that could damage the upholstery or scratch the surface.
- Never use a rag that has been previously used with any type of polish or cleaner.
- Keep furniture and upholstery away from prolonged, direct sunlight and heat sources to avoid discoloration, warping or – especially in the case of leather – unwanted drying.

NATURAL LEATHER

Natural leather can be gently dry dusted on a regular basis with a clean soft white cloth or using a vacuum with a soft drapery attachment. For stubborn food stains, gently blot the area using distilled water and a clean white cloth until the food releases from the surface.

- Do not rub the area as that could change the look of the leather.
- Allow leather to air dry.
- Regular care and cleaning allow our leathers to naturally age. Oiling or conditioning is not necessary.

PERFORMANCE LEATHER

Performance leather can be dry dusted on a regular basis with a clean soft white cloth or using a vacuum with a soft drapery attachment. It can be cleaned using a mild soap-and-water solution. For stubborn food stains, gently blot the area using distilled water and a clean white cloth until the food releases from the surface.

- If soap is used, gently blot the area with distilled water to remove any soap residue.
- Do not rub the area as that could change the look of the leather.
- Allow leather to air dry
- Regular care and cleaning allow our leathers to naturally age. Oiling or conditioning is not necessary.

FURNITURE SURFACES

All furniture surfaces should be regularly dusted using a clean, dry soft white cloth. Cleaning can be done using a mild soap-and-water solution with care taken to avoid harsh cleaners.

- Do not allow the cleaning solution to pool; wipe away excess with a clean, soft white cloth.
